ENSF 338 Final Project

Repo: https://github.com/youssefssaad/ensf338final.git

Members

Ben Zuidema
- 30147165
- Linear folder and some of Node
- Corresponding tests
- Documentation

Youssef Saad
- 30145806
- Trees and nodes
- Corresponding tests
- Packaging

Bonus Elements

- Delete with balance in AVL/BST
- Packaging
- TNode generics

Overview of Library Design

We just followed the instructions for the most part and ordered the files in the same way as they were demonstrated in the module documents. We just worked through the tasks and split the modules as that way we could work at the same time without conflicts.
